SUMMARY

Computer Science student at UPNM (CGPA 3.79) specializing in Python automation, web dev, and AI. Experienced In NLP (BERT), CV (YOLOv8), OCR, Docker, and LLM APIs. Ubuntu/Neovim/CLI power user. Passionate about building end to end solutions and automating workflows.

TECHNICAL SKILLS

- **Languages:** Python, PHP, Javascript, MATLAB (Certified)
- **Frameworks:** Django, Laravel, Django REST Framework
- **AI & Data Science:** NLP (BERT, XLM-RoBERTa, BERTopic), Computer Vision (YOLOv8, OpenCV), Sentiment Analysis, Scikit-learn
- **Databases:** PostgreSQL, MySQL, SQLite
- **Tools & Environment:** Neovim, Ubuntu/Linux, Bash/CLI, Git, Github, Docker, LLM APIs (Claude, DeepSeek)

KEY PROJECTS

1. Full-Stack Automation Developer (Capstone Project)

- Led the end to end development of an automation system that parsed cleaned, and analyzed thousands of real world WhatsApp chat messages for daily operations.
- Fine tuned an XLM-RoBERTa model for multi class sentiment analysis and implemented BERTopic for unsupervised topic extraction.
- Designed RESTful APIs (Django REST Framework) to serve AI insights to a web dashboard, enabling staff to view reports instantly.
- Containerized the entire application using Docker to ensure seamless deployment and easy maintenance.

2. Image Processing Edu Web App | *Python, OpenCV, Django, Tailwind, Docker*

- Interactive web demo showing Median/Gaussian filtering on images. Containerized with Docker for seamless deployment.

3. Hotel Reserve System | *Laravel, MySQL, Bootstrap*

- Complete hotel booking system with user auth, real time room availability, and MySQL schema modeling.

RESEARCH & ACADEMIC PROJECTS

NLP Sentiment Analysis Study (Under Review) | UPNM, 2026

- Co-authored a comparative study proving BERT outperforms Lexicon-based methods. Built Python training pipelines (Hugging Face Transformers).

EDUCATION

Bachelor of Computer Science (Hons.) | UPNM | CGPA: 3.79 (Dean's List)

CERTIFICATIONS & INTERESTS

- **Certifications:** MATLAB Certified (MathWorks); MATLAB Image Processing & ML.
- **Interests:** English Classic Literature, Open-source, AI Ethics, Docker/DevOps
